AUDITOR'S REPORT

Ref: ZGX (2007) No.081

TO THE BOARD OF DIRECTORS OF TIANJIN MONOCON REFRACTORIES CO., LTD:

We have audited the accompanying financial statements of Tianjin Monocon Refractories Co., Ltd (the "Company"), which comprise the balance sheet as at 31 December 2006, and the income statement and cash flow statement for the year then ended and explanatory notes.

1. Management's Responsibility for the Financial Statements

It is the responsibility of the Company's management to prepare the financial statements in accordance with the requirements of the Accounting Standards for Enterprises and the "Accounting System for Enterprises". This responsibility includes: (1) designing, implementing and maintaining internal control relevant to the preparation of financial statements that are free from material misstatement, whether due to fraud or error; (2) selecting and applying appropriate accounting policies; and (3) making accounting estimates that are reasonable in the circumstances.

2. Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Auditing Standards for Chinese Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation of financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

3. Opinion

In our opinion, the financial statements present fairly, in all material aspects, the financial position of the Company as at 31 December 2006, and of its financial performance and its cash flows for the year then ended in accordance with the relevant requirements of the Accounting Standards for Enterprises and the "Accounting System for Enterprises".

TIANJIN MONOCON REFRACTORIES CO., LTD

Notes to the Financial Statements

1. GENERAL

Tianjin MONOCON Refractories Co., Ltd. (the "Company") is a wholly foreign owned enterprise established on September 18, 2002. The company obtained the approval certification "Shang Wai Zi Jin Wai Zi Zi [2002] No. 0153" from Tianjin Municipal Government. The Company's business license is "Qi Du Jin Zong Fu Zi No.014514" issued by Stated Administration for Industry and Commerce of the Tianjin. The registered capital of the Company is USD200, 000.00 with operating term of 20 years, certified by Tianjin Tongxin CPAs firms with Capital Verification Report "Jin Tong Kuai Yan Zi (2002) No. 65"

In 2006, the Company's investor changed from Monocon Overseas Ltd to IFGL Worldwide Holdings Limited, approved by Tianjin People's Government. New approval certification had been obtained on September 28, 2006.

The allowable business scope with the business license covers producing processing and selling refractory materials and providing related services.

2. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES

The significant accounting policies and accounting estimates adopted in the preparation of the financial statements are in conformity with the requirements of the Accounting Standards for Enterprises of the People's Republic of China and the "Accounting System for Business Enterprises" and the relevant supplementary regulations.

Accounting system and accounting standards adopted

The accounting policies adopted by the Company are in accordance with Accounting Standards for Enterprises of the People's Republic of China and "Accounting System for Business Enterprises" and the relevant supplementary regulations.

Accounting year

The Company adopts the calendar year as its accounting year, i.e. from 1 January to 31 December.

Recording currency

The recording currency and reporting currency of the Company is Renminbi unless otherwise specified.

2. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

Basis of accounting and principle of measurement

The Company maintains its accounting records on accrual basis and its records are measured at historical cost. Each asset is recorded at actual cost on acquisition. At the end of each period, the Company determined whether an impairment loss should be recognized for any asset by considering the indication that such loss may have occurred in accordance with "Accounting System for Business Enterprises".

Foreign currency translation

Transactions in foreign currencies are translated into Renminbi at the applicable rate of exchange prevailing at the dates of the transactions quoted by the People's Bank of China ("benchmark exchange rate").

Monetary assets and liabilities denominated in foreign currencies are translated into Renminbi Yuan at the applicable rate of exchange prevailing at the balance sheet date. Exchange gains and losses on foreign currency translations are dealt with in the income statement.

Cash equivalents

Cash equivalents are short-term, highly liquid investments that are readily convertible into known amounts of cash and which are held by enterprises and subject to limited risk on changes in value.

Provision for bad debts

Criteria for recognition of bad debts are:

- The irrecoverable amount for a debtor who becomes bankrupt after pursuing the statutory recovery procedures or who dies and has no offsetting estate and obligatory undertakers;
- The irrecoverable amount or this amount with less possibility to be recovered with sufficient evidence for a debtor who does not comply with repayment obligation after the debt becomes due.

Inventories

Inventories include raw materials, finished goods, packaging materials and low value consumables, etc. Inventories are stated at actual cost, which includes costs of purchase and processing and those overheads that have been incurred in bringing the inventories to their present location and condition. Actual cost is applied for the record of movement of inventories and is recognized on a weighted average basis. Low value consumables are expensed on a one-off write-off basis.

Inventories are measured at the lower of cost and net realizable value at the balance sheet date. The impairment of inventories is made when the net realizable value is lower than the cost. Net realizable value represents the balance of the estimated selling price less the estimated cost of completion, the estimated cost of marketing and the relevant taxes and levies in the ordinary cost

2. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

of business. Net realizable value is recognized on an individual basis with reference to general selling price.

Impairment on finished goods is provided on an individual basis. Impairment on raw materials is provided on a category basis.

Fixed assets

Fixed assets are tangible assets held by the Company for production, provision of services, lease or operation, with useful life exceeding one year and with a relatively higher unit cost.

Fixed assets are recorded at actual cost on acquisition. Depreciation is provided to write off the cost of each category of fixed assets over their estimated useful lives using the straight-line method. The estimated useful lives, estimated residual values and annual depreciation rates of each category of fixed assets are as follows:

<u>Category</u>	<u>Estimated useful lives</u>	<u>Annual depreciation rates (%)</u>	<u>Estimated residual rates (%)</u>
Manufacture Equipment	10 years	9%	10%
Office Equipment	5 years	18%	10%
Motor Vehicle	5 years	18%	10%
Assistant Equipment	5 years	18%	10%

At the end of each period, fixed assets are measured at the lower of their carrying amounts and their recoverable amounts. Where the recoverable amount of any fixed asset is lower than its carrying amount, an impairment loss is recognized for the difference. Recoverable amount represents the higher of the net selling price of the asset and its value in use. Value in use is the present value of the future cash flows expected to be derived from the use of assets less costs to sell.

The net gains and losses arising from the disposal of fixed assets are recorded as non-operating revenues or expenses in the income statement.

Revenue recognition

- (1) Revenue from rendering of services is recognized in the accounting period in which the services are rendered, by reference to completion of the specific transaction assessed on the basis of the actual service provided as a proportion of the total services to be provided.
- (2) Sales revenue is recognized when the Company has transferred the significant risks and rewards of ownership of the goods to the buyer; and the Company neither retains the managing rights nor control over the goods sold; and the economic benefits associated with the transactions will flow to the Company and relevant revenue and cost can be reliably measured.

2. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

Income tax

Income tax is provided under the tax payable method. Income tax provision is calculated based on the accounting results for the year as adjusted for items which are non-assessable or disallowed under the relevant tax laws and regulations.

Related parties

Parties are considered to be related to the Company if the Company has the ability, directly or indirectly, to control or jointly control the party or exercise significant influence over the party in making financial and operating decisions; or where the Company and the party are subject to common control.
